

# HIGH MILEAGE BOOSTER

**FULL SYNTHETIC CONCENTRATE FORMULA**

## CONVERT ANY MOTOR OIL INTO A HIGH MILEAGE PERFORMANCE BOOSTER

**GF-6  
COMPLIANT**

**DOES NOT ALTER  
VISCOSITY**

DuraMAX® HIGH MILEAGE BOOSTER is a full synthetic uniquely concentrated blend of key additives specially engineered to help restore performance, protect vital engine parts and extend engine life in higher mileage vehicles. It's formulated to increase anti-wear, anti-oxidant and anti-corrosion components while fortifying oil detergents to help improve piston cleanliness and reduce friction, heat, and wear between moving parts. DuraMAX® HIGH MILEAGE BOOSTER also helps prevent oxidation and corrosion that can negatively affect oil viscosity and harm metal surfaces, and prevents the negative effects of water, salt and acids.

- ▶ Provides Excellent Protection for High Mileage Vehicles
- ▶ Helps Restore Performance
- ▶ Reduces Timing Chain Wear
- ▶ Superior Anti-Wear Formula
- ▶ Helps Revitalize Seals and Gaskets
- ▶ GF-6 Compliant - Does NOT Alter Viscosity
- ▶ Compatible with ALL Conventional and Synthetic Oils
- ▶ Safe for GDI, PFI, Hybrid, and Diesel Engines

#### Application/Directions:

- ▶ Add one(1) ounce per quart of engine oil. **DO NOT OVERFILL**
- ▶ One bottle treats up to 128 quarts of engine oil
- ▶ Use pump for easy and accurate dispensing
- ▶ For best results, use at every oil change
- ▶ Best used with DuraMAX® Motor Oils

#### Features/Benefits:

DuraMAX® HIGH MILEAGE BOOSTER is a GF-6 compliant leave-in oil treatment for high mileage vehicles that fortifies all engine oil grades to provide long-lasting engine protection and help maintain optimum performance for extended life. Advanced antioxidants prevent oxidation, while special dispersants help keep piston rings, hydraulic lifters, and other engine components clean and free of sludge or deposits. DuraMAX® HIGH MILEAGE BOOSTER also enhances the ability of engine oil to reduce friction and wear on internal engine components.

When used as directed, results in a blend that meets current API and ILSAC performance standards.
